Businesses Need Solutions

At Vulcan Logic, we are committed to providing our clients with the highest level of computer service possible. For over a decade we have invested in the future of our clients by providing them with competitively priced products, professional services, expert service and quality support.

We recognize that no two businesses are alike, and will not try to push cookie-cutter solutions on our clients. We'll research *your* needs, consider each aspect of *your* business and provide you with a complete turnkey solution that addresses *your* specific requirements and budget.

Vulcan Logic has everything you need to provide your business with complete system integration and IT solutions. We can handle all your IT needs, from hardware to software to systems design and consulting.

Vulcan Logic can help your company:

- Manage and protect your IT investment;
- Share information, even between disparate and/or legacy systems;
- Share office resources;
- Streamline and/or automate operations;
- Improve productivity;
- Manage and secure data;
- Improve communication;
- Harness the power of the Internet

... and much more. Visit our Web site at www.vulcanlogic.com for more information. Or contact us by email at info@vulcanlogic.com or by telephone at **(305) 865-4918** to discuss your needs and schedule a free consultation.

Our Mission

To provide our customers with the one-stop computing solutions center needed to maintain the competitive edge in today's rapidly evolving and highly diversified market.

The Challenge

How many times has it happened? The more successful your business becomes, the harder it is for you to keep up with the growing demands of your information systems. And since information technology changes so fast, it's not easy to determine which IT solutions best fit your organization.

In the last few years, we've seen some amazing advances in the computer industry. The computer has become an essential tool in today's business world. But more importantly, it has allowed small companies to compete alongside large companies. Technology has leveled the playing field, allowing smaller companies to reach larger audiences at affordable prices.

And the world of information technology continues to change. The Internet is changing the way we do business in ways that many of us couldn't imagine a decade ago. With the emergence of e-business, e-commerce, and wireless networking, who can you trust to get sound computer advice? Where can you go to get the cutting-edge systems design and integration you need to take your business to the next level? The answer is simple ... **Vulcan Logic**.

The Solution

Vulcan Logic can assist your business in integrating tomorrow's technology today. We specialize in configuring and customizing systems that fit the rigorous demands of today's fast-paced and rapidly growing companies. We devise smart, custom IT solutions that grow at the same pace as your business. The result for you: a more efficient and profitable business.

All of our services are designed with one thing in mind — enhancing your business and your bottom line. We at Vulcan Logic strive to be your one-stop computing solutions center™. Our goal is to provide you with the tools needed to excel at whatever you do. Our professional and experienced staff will help you to enhance the way you do business by providing:

- Customized, cost-effective computer solutions;
- Competitively priced equipment and supplies;
- Proper training;
- Timely service and support.

When it comes to your IT, we're dedicated to offering you creative solutions that fit your budget. Visit our Web site at www.vulcanlogic.com for more information. Or contact us by email at info@vulcanlogic.com or by telephone at **(305) 865-4918** to discuss your needs and schedule a free consultation.
