

## Businesses Need Solutions

At Vulcan Logic, we are committed to providing our clients with the highest level of computer service possible. For over a decade we have invested in the future of our clients by providing them with competitively priced products, professional services, expert service and quality support.

We recognize that no two businesses are alike, and will not try to push cookie-cutter solutions on our clients. We'll research your needs, consider each aspect of your business and provide you with a complete turnkey solution that addresses your specific requirements and budget.

Vulcan Logic has everything you need to provide your business with complete system integration and IT solutions. We can handle all your IT needs, from hardware to software to systems design and consulting.

## We Can Help

Vulcan Logic can help your company:

- Manage and protect your IT investment
  - Share information, even between disparate and/or legacy systems
  - Share office resources
  - Streamline and/or automate operations
  - Improve productivity
  - Manage and secure data
  - Improve communication
  - Harness the power of the Internet
- ... and much more. Visit our Web site at [www.vulcanlogic.com](http://www.vulcanlogic.com) for more information. Or contact us by email at [info@vulcanlogic.com](mailto:info@vulcanlogic.com) or by telephone at **(305) 865-4918** to discuss your needs and schedule a free consultation.

YOUR ONE-STOP COMPUTING SOLUTIONS CENTER™

# You won't be the first to choose OSAS®. Over 200,000 companies have made the same choice.

**OPEN SYSTEMS® Accounting Software (OSAS®)** is a powerful, award-winning accounting and business management system that is flexible and easy to customize to your requirements. Built on a tradition of success, OSAS is designed to be easy to learn and use. A proven industry leader, OSAS will help meet your needs and expectations now and in the future.

OSAS provides these key advantages for small and medium businesses:

**Robust Functionality** — OPEN SYSTEMS has over 25 years of experience in providing award-winning business solutions and incorporating feedback from real-world users.

**Open Source Code** — All OSAS applications include source code at no additional cost. This allows us to customize the system to meet *your* specific needs, and to add functionality to support *your* unique needs and changing market conditions.

**Strong Support** — Many vertical applications are available from third-party OSAS developers, meeting the needs of many different types of businesses.

**Platform Portability** — With OSAS, you can choose the platform that suits your business: Windows, UNIX/Solaris/AIX, or Linux. In addition, OSAS C/S is a high performance, cost-effective client/server solution that provides additional platform flexibility and scalability.

**Interface Flexibility** — some users prefer character-based screens; others may want to use graphical screens. Have it your way! OSAS allows you to mix and match screens in the same accounting system.

## Vulcan Logic — Your OSAS® solutions center

As your OSAS Value Added Reseller, Vulcan Logic can provide you with the following services:

- **Consulting** — We will provide you with skilled technical resources and implementation assistance. From determining your needs to setting up your system, we'll be there every step of the way.
- **Training** — We'll help you and your staff realize the full potential of your new software.
- **Technical Support** — We'll provide answers, assistance and advice when you need them, and resolve any problem quickly.
- **Custom Development** — We will deliver the solutions that meet your unique business needs.

Let Vulcan Logic build your OSAS solution.

### †For More Information

Visit [www.vulcanlogic.com/solutions](http://www.vulcanlogic.com/solutions) for more information on OSAS and how Vulcan Logic can help your business. There you'll find full details and spec sheets for each of the OSAS modules, links to white papers, and other useful information.

Our staff will also be happy to answer any questions you may have about OSAS or our services. Contact us by email at [info@vulcanlogic.com](mailto:info@vulcanlogic.com) or by telephone at **(305) 865-4918** to discuss your needs and schedule a free consultation.

You're looking for a system that is flexible, easy to customize, and portable. One that's easy to learn and use. And one that meets your needs and expectations now and in the future. Hundreds of thousands of businesses have faced that challenge and found that there is one answer to everything on their wish list: OPEN SYSTEMS® Accounting Software (OSAS®).

Available in single-user, network and client/server versions, OSAS version 6.x operates on Windows, Novell, UNIX, Linux, Sun Solaris, UnixWare, and AIX systems.

OSAS C/S is a high performance, cost-effective client/server solution that provides platform flexibility and a wide array of capabilities. Gain access to your data by mixing and matching UNIX, Linux and Windows clients and servers. You'll have unlimited interoperability between character and graphical/windows interfaces. Because vital business information is quickly available to a wide variety of corporate users, you can successfully leverage your valuable data to stay competitive.

The OSAS suite is composed of individual modules that can be put together to meet the varying needs of each business:

#### Accounting

- General Ledger
- Accounts Receivable
- Accounts Payable
- Direct Deposit
- Bank Reconciliation
- Payroll
- Job Cost
- Fixed Assets
- OSAS Web Interface
- Resource Manager

#### Reporting

- GENERAL Report Writer
- ODBC Kit

#### Distribution

- Inventory
- Sales Order
- Purchase Order
- Bill of Materials / Kitting

#### Featured Verticals

- Contractors' Job Cost

Third-party vertical applications are available for many industries, including Apparel, Wholesale, Manufacturing, Repair and Maintenance Services, Professional Services and others.

Detailed information about these modules can be found on the Vulcan Logic Web site†.
