

Businesses Need Solutions

At Vulcan Logic, we are committed to providing our clients with the highest level of computer service possible. For over a decade we have invested in the future of our clients by providing them with competitively priced products, professional services, expert service and quality support.

We recognize that no two businesses are alike, and will not try to push cookie-cutter solutions on our clients. We'll research your needs, consider each aspect of your business and provide you with a complete turnkey solution that addresses your specific requirements and budget.

Vulcan Logic has everything you need to provide your business with complete system integration and IT solutions. We can handle all your IT needs, from hardware to software to systems design and consulting.

We Can Help

Vulcan Logic can help your company:

- Manage and protect your IT investment
- Share information, even between disparate and/or legacy systems
- Share office resources
- Streamline and/or automate operations
- Improve productivity
- Manage and secure data
- Improve communication
- Harness the power of the Internet

... and much more. Visit our Web site at **www.vulcanlogic.com** for more information. Or contact us by email at **info@vulcanlogic.com** or by telephone at **(305) 865-4918** to discuss your needs and schedule a free consultation.

Manage your business finances more effectively with QuickBooks®

With nearly 2.5 million users, QuickBooks® is America's best-selling #1 rated small business accounting and financial management software. QuickBooks® helps make small businesses efficient by making it easier to manage business finances with one easy-to-learn program. It is easy enough for small businesses, yet powerful enough for firms that require features such as:

- E-commerce
- Electronic Banking
- Payroll / Direct Deposit
- Departmental Accounting
- Departmental / Multi-Location Accounting
- Purchase Orders
- Job Costing / Time Tracking / Estimating
- Remote Access

More and more third-party developers are integrating their applications with QuickBooks in order to make your day-to-day accounting and financial management tasks easier. Now data for critical activities can be shared between other applications and QuickBooks without entering it twice. This can help you save valuable time by reducing data entry on activities such as shipping, point of sale transactions, project management, estimating, contact management and many others.

Software applications that can exchange data with QuickBooks® Pro and Premier are being developed for many types of businesses like:

- Retail
- Healthcare
- Automotive
- Non Profit
- Service Businesses
- Construction
- Real Estate
- Legal

... and more! QuickBooks® can also be integrated into many existing line-of-business programs.

Vulcan Logic — Your QuickBooks® solutions center

QuickBooks® is available in multiple versions to meet the varying needs of small businesses. From QuickBooks® Basic to QuickBooks® Enterprise Solutions, there's a version that's right for you.

As a QuickBooks® Professional Advisor, Vulcan Logic can help you:

- Select which version of QuickBooks® is right for your business;
- Install and configure QuickBooks® for optimal performance and functionality for your business;
- Enhance QuickBooks® by providing compatible third-party software for your line of business;
- Integrate QuickBooks® into your existing line-of-business software;
- Integrate QuickBooks® with other compatible third-party applications;
- Customize QuickBooks® forms (invoices, statements, purchase orders) and reports;
- Provide you with support and training.

†For More Information

Visit www.vulcanlogic.com/solutions for more information on QuickBooks® and how Vulcan Logic can help your business. There you'll find descriptions of the various QuickBooks® suites; additional information on compatible QuickBooks® software, products and services; recommended reading lists; and other resources.
